

SLIM 1007 UK Wireless keyboard

Wireless keyboard with numeric keypad and touchpad

The SLIM 1007 is a wireless version of the SLIM 711 and combines autonomy, hygiene and comfort. Smooth surface: easy to clean with all chemical agents used in hospitals or clean rooms.

SPECIFICATIONS

- 4m range. Bluetooth 4.2 communication protocol with dongle, proprietary.
- 20 hours of continuous typing. The battery can be recharged via USB on a PC or with a charger from the mains.
- It automatically goes to sleep when not in use to save battery power and wakes up by touching the "On" area. The keyboard can remain in standby mode for several weeks before discharging.
- Its Lithium-ion battery is replaceable, which simplifies maintenance and maximises battery life.
- Locking function: allows cleaning by locking the keyboard
- TapTop function: allows for smoother and more ergonomic typing
- Glove friendly
- Waterproof IP65
- Tempered glass: unalterable
- Zero Newton technology" pressureless typing

TACTYS is the specialist in tempered glass keyboards since 2006.
We develop and manufacture our keyboards in Touraine France.
